If you're having a bad day and just want to sit back and play a cheap but still charming and lighthearted game to lift your spirits, I would definitely recommend this for you. As short and simple it was I quite enjoyed this little game. The characters are distinct, the graphics are nice and the music is quite cute. I really enjoyed spotting the references hidden in there, like Doctor Who, Shakespeare and a few others I noticed. But I'll let you find the others yourself. I hope I didn't miss any! I hate missing out on references.. Great game, low price. Seriously, if you enjoy puzzle games that increase quickly in difficulty to the point that you want to cry this is the game for you. I love it!. it keeps telling me direct x error. My friend bought this for me.

Why do bad things happen to good people?. Me gustó la sensación de soledad y desolación. La música y los sonidos lo hacen opresivo.

Son muy molestos los magnetismos generados por las anomalías que no te dejan jugar tranquilo, pero eso lo hace desafiante por momentos.

Tiene cierta rejugabilidad que lo hace más interesante y si vas por los logros (como yo...) dura un toque más.

Lo banco amigo...

Yet another brilliant entry in the entire series. I seriously couldn't get enough of these. I was actually really thrilled to create a second character and run through a similar storyline. Can't wait to read the rest! 8/10. This game was a surprise to me. I did not know this had anything to do with the show until I had already bought it. I am not going to lie after that I fully expected a show tie in POS. Instead I was pleasantly surprised to find out this game plays like some of the greater games of their times. Mirrors Edge/Dying Light parkour, Psi-Ops powers, and all of that on the Unreal 4 engine making it look rather good. I have a YouTube video where I give the game a proper glance here. <https://youtu.be/rJsn4bkRkR4>. It is lovely weather we're having.

Its a really awesome concept piece, I love the effort thats gone into it. Its just really chill and relaxing. One of my favourite games for environment for sure. Its like a painting, not super interactive but lovely to look at.. I love refreshers like this course. Even after years and years of using Microsoft Excel, I still came away with new "stuff" -- for example, adding backgrounds to spreadsheets, using the Format Painter to apply styles to other cells or ranges, and the ability to find\replace data as well as apply formatting to the replaced data. There are a few other productivity tips as well.

Who knew you could add color to workbook tabs? Awesome!

SmartArt? Never heard of it until taking this course. Awesome!

One minor gripe is with the interface. It's a bit more specific than I would have liked. For example, when clicking on elements or dragging and dropping items, you have to be very careful about where you click or the program will ask you to try again.

Overall, a great program for those people new to Excel or needing a quick review.. Too many random bugs\crashes. I love the way its simulating, but the crashes are too much of a distraction for me.

Edit: 6 Hours in. DX9 seems to work. DX11 Used to not load "City Driving" test but with DX9 it works.. Uses the same backgrounds and textures. Basically the same as building a stage but with a timer. 50 cents later and still a ripoff.. Very cool and creative twin-stick shoot 'em up with platforming elements. If you are a fan of bullet hell shooters or if you like good games in general, you might want to check this one out. The elaborate scoring system makes it a fantastic arcade game that you can sink countless hours into. The developer is also very helpful and fixed a problem I had with the controls right away.. Very enjoyable 2D platformer with RPG elements in retro graphics.
